POLICE DEPARTMENT

Again, in 1965, the Police Department noticed a large increase in most of its activities. The accompanying statement indicates the increase compared to 1964. While the increase in many categories is large, we feel that the totals are not abnormal for a town whose population will rise to over 4000 in 1966.

Perhaps the most difficult problem faced by the department is the ability to answer promptly and efficiently, the myriad of calls received on a 24 hour basis. The standard or "norm" for manpower within a Police Department is one man per thousand population. In many towns of this area, conditions have necessitated an even higher ratio. We have been working with about one half the normal complement. An accurate census taken by town officials during the summer of 1965 showed a population of just over 3500.

The 1966 Budget as presented by the Department, represents a considerable study of our problems and requirements. It is also the beginning of plans to provide for the proper and economical handling of future problems. Many problems have arisen in the past year in relation to criminal investigation. Recent Supreme Court rulings and interpretations have dealt a tremendous blow to the apprehension and prosecution of criminals. We feel that the increase in crime nationally, is a direct result of these rulings. Proper education is now a virtual necessity for all police officers and particularly for those of us in the smaller towns who must have ready answers to whatever problems that may confront us. Chief Ball is continuing his studies in Law Enforcement at St. Anselm's College, and Officer Charles Webster has started classes this year. These courses are attended by the Officers on their own time.

The activity statistics listed below are nearly self explanatory. Note the sizable increases in most of the activities for the one year period.

Activity	1965	1964	
Accidents	110	91	22%
Assaults	4	2	
Arson	2	0	
Assists to other departments	76	52	
Assists to motorists	19	12	
Breaking & Entering	17	6	
Complaints and requests for assistance	465	247	88%
Complaints, Family problems	42	26	62%

Operating under the influence	9	1
Emergency notifications	21	13
Requests for house checks	54	21
Juvenile cases	11	16
Lost or missing persons	8	11
Lost or stolen property	33	36
Dumping of Rubbish	6	9
Vandalism	20	21
Prowlers	8	16

51 arrests including: 4 for assault, 2 for malicious damage, 3 for breaking and entering, 1 for forgery, 9 OUIL and 26 other motor vehicles, and 6 miscellaneous.

REPORT OF VOLUNTEER FIRE DEPARTMENT

In case of fire, call the Londonderry Volunteer Fire Department 432-3138 - Give a good location of fire to whoever answers your call.

Emergency calls received by 432-3138 are taken on the red network System over 7 strategically located phones, which in turn activates the fire alarm system.

The radio communications system has been increased by 50%. The increased efficiency of the department through the use of these units has proven itself by being able to communicate to each fire-fighting unit which has saved precious minutes and thousands of dollars.

The men of the department have spent many hours of labor to raise funds for equipment, which include hauling 60,000 gallons of water.

The outdated State Forestry Chevrolet tank truck, which was on loan to the Town, has been replaced by a 1952 Federal truck, which is also on loan to the Town, having a 200 gallon capacity tank that we converted to a 900 gallon unit. The conversion of this unit to a workable piece of apparatus was a great expense to the department.

Repairs and improvements are continually being made to both Station #1 and Station #2 in the form of painting, construction of hose drying racks, and general maintenance, which is a credit to the Town.

Currently we are engaged in a plan of activities including first aid, training films on various types of fire-fighting and an orderly weekly plan which will familiarize all department members with all their equipment, and proper methods of fire-fighting.

Another successful year by the Department's participation in the Southern New Hampshire Muster League has been realized with the Londonderry Department taking 3rd Honors throughout the League which consists of about 24 departments. Training for these musters has increased the efficiency of the Department no end.

The Londonderry Men's Club has turned over the Mayflower Grange Hall to the Fire Department, which will be offered to the Town as a community hall. General improvements to the hall will be made by members of the Fire Department through a self-sustaining Building Fund.

The Ladies Auxiliary has continued to be of tremendous help to the Fire Department. They are striving to provide safety for each fireman by purchasing personal equipment and maintaining the needed insurance. At this time, each individual fireman wishes to extend his sincere thanks and deep appreciation to each of the ladies for their unselfish efforts.

The appropriated budget for 1965 was \$3000; Actual expenditures were \$5,339.42 as detailed below. The difference of \$2,339.42 was raised by the Department.

1965 Expenses	
Heat	\$ 610.47
Electricity	156.44
Building Repairs	204.78
Telephone	709.03
Truck Repair and Operating Expense	2,413.57
Insurance	612.20
New Equipment	590.39
Miscellaneous	42.54
Total	\$5,339.42

The Fire Department in 1963 responded to 47 calls; in 1964, 63 calls and in 1965, 102 calls.

As you will notice in the Town Report, we are requesting a new piece of apparatus which we feel is necessary to replace an old and undependable truck and to keep pace with the rapid growth of the Town, including the Industrial Park at Grenier Field. The loss of the equipment from Grenier Field which has aided us prior to this time has made it essential that we increase the efficiency of our Department. This new truck would meet the original Underwriters requirements for the purpose of maintaining the present reduced insurance rates which are saving Town people a substantial sum of money.

We would appreciate the kind consideration of the Town people in supporting this vital need. Remember, this is your Department. We cordially invite all Town people to come any Wednesday night and see how your fire dollars are spent.

HOMER L. BREWER, Chief

REPORT OF THE FOREST FIRE WARDEN AND YOUR DISTRICT CHIEF

Most of us who live in New Hampshire and the thousands of vacationists that visit us every year love the State for the variegated woodlands that encircle our clean lakes and clothe the hills and mountains. Most of us appreciate these values, but still there were enough careless people among us to cause over 880 grass and woodland fires to start in 1965. True this was a much dryer than normal year but this should have meant the use of extra care. Fortunately the fire fighting forces have held the line against such careless acts. It is up to each one of us to be ever mindfull that a spark or flame is a potential fire.

WE MUST ALL BE CAREFUL:

1. To teach our children the danger in lighting matches.
2. To never discard lighted smoking material from a car or while walking through fields or woods.
3. To safely dispose of rubbish preferably at the town dump. If you must burn rubbish or brush;
 - a. Always get a permit to burn from the warden.
 - b. Start your fire late in the day after 5:00 P.M.
 - c. If burning a field or brush have equipment and adequate help on hand. The heat from your fire creates its own draft to spread fire.

Our carelessness with fire is costing our State and Towns thousands of wasted dollars in suppression and hundreds of acres of destroyed woodlands. Yours never to enjoy.

Warden

REPORT OF HEALTH OFFICER

This report covers the calendar year of 1965. During the year approximately forty five building permits were issued for construction and remodeling and in each case the site involved was visited and inspected.

Twenty-two trailers and their premises were inspected to determine suitability of surroundings and adequacy of water supplies and sewage disposal facilities.

Throughout the year various lunch rooms were visited, their facilities inspected and the conditions under which food was being prepared and served were closely examined. Prevailing conditions were found to be excellent.

Sixteen complaints were received, investigated and acted upon by this office.

- a. Six complaints -- homes with overflowing cesspools or septic tanks.
- b. Two complaints -- trailers parked without proper authorization.
- c. One complaint -- trailer park operating without a water supply.
- d. One complaint -- family living under filthy conditions. Family living in trailer on garbage strewn premises; children infected with lice.
- e. One complaint -- house unfit for occupancy. Extreme case of disrepair; house condemned.
- f. Several complaints -- against one farm emitting offensive and unbearable odors.

In all of the cases listed above the undesirable situations were corrected or resolved in the best interests of the town and its residents.

Many unscheduled visits were made to the town dump. It was always found to be in a "well-cared-for" condition; a credit to the custodian.

G. W. BARRETT
Health Officer

REPORT OF THE PLANNING BOARD

During the year your Planning Board was very active averaging two meetings per month. In addition it covered a wide variety of subjects which necessitated numerous meetings with the N.H. Department of Resources and Economic Development as well as other Agencies. The information gathered should ultimately be of advantage to our Town in further planning for the future.

We have studied numerous proposals and in the opinion of your Board the following recommendations which will be put forward at Town Meeting, seem to us quite vital for the future growth of the Town.

The adoption of Sub-Division Regulations is most urgent in order that the Town may have the authority to insure that developers complete streets etc. according to Town specifications. At present this authorization is lacking.

The 701 program recommended will ensure us of competent professional assistance in the furthering of our future Planning.

Regional Planning is for better co-ordination between surrounding communities. In this context we may mention water and sewage facilities and other services.

Improvements in our present Zoning Ordinance will be brought up in Public Hearings and presented at a later date.

Much work remains to be done and we look forward to your continued support and co-operation without which little can be accomplished during the coming year towards making our Town a better place in which to live.

COLIN MCINNES
Secretary Planning Board

BOARD OF ADJUSTMENT

The appeals to the Board increased 50% over the year 1964. The following are the specific Articles under which 25 cases were appealed and resolved.

Article III Section C.

1 Denied 1 Granted

Article III Section D

2 Granted

Article III Section E

3 Granted

Article V

1 Denied

Article VIII Section A

7 Granted

Article VIII Section E

7 Granted 2 Denied 1 Unresolved

The unresolved appeal is an instance where the Board requested information from the appellant which would have helped in reaching a decision and the applicant did not reappear.

The office of clerk has been filled very ably by Mr. Kermit Shepard who replaced Mr. Arthur Goodnow who moved to Massachusetts.

This year marks the end of a three year term for me and I wish to thank my fellow board members for our discussions which helped me to make my decisions.

My gratitude also goes to Mr. Jack Powers, Mr. Charles Hall, Mr. Colin McInnes, and Mr. George Barrett for their services as temporary Board members.

Respectfully submitted,

CHESTER W. BUTTON
Chairman

SCHOOL WARRANT

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School district in the town of Londonderry, New Hampshire qualified to vote in district affairs:

You are hereby notified to meet at the Londonderry Central School in said district on the 5th day of March 1966, at 1:30 o'clock in the afternoon, to act upon the following subjects:

1. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and to pass any vote relating thereto.

2. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district.

3. To see if the district will vote to authorize the school board to make application for, and to accept on behalf of, the district any or all grants or other funds for educational purposes which may now or hereafter be forthcoming from the United States Government or from the State of New Hampshire.

4. To see if the district will vote to authorize the school board to accept, in the name of, and in behalf of, the school district, gifts for the use of the school.

5. To see if the district will vote to accept the provisions of Public Law 89-10, designed to improve educational opportunities with particular reference to children of low-income families, and to appropriate such funds as may be made available to the district under said Federal Act for such particular projects as may be determined by the school board. Further to see if the district will authorize the school board to make application for such funds and to expend the same for such projects as it may designate.

6. To see if the school district will vote to authorize the employment of a business administrator for New Hampshire Supervisory Union #10 according to RSA 186, II, XXII, XXIII, XXIV as amended.

7. To see if the school district will appropriate a sum of money for constructing, originally equipping and furnishing an addition to the Central School, and to determine whether such appropriation shall be raised by borrowing or otherwise.

8. To see if the school district will vote to raise and appropriate the sum of nineteen hundred (\$1,900.00) dollars to pay the initial interest payment on the bond issue for Article 7.

9. To see if the school district will vote to raise and appropriate the sum of twenty-three thousand, five hundred (\$23,500.00) dollars for transportation to and rental of temporary classrooms. Eleven thousand (\$11,000.00) dollars for transportation and twelve thousand, five hundred (\$12,500.00) for rental.

10. To see if the school district will appropriate a sum of money for constructing, originally equipping and furnishing a new elementary school in North Londonderry and to determine whether such appropriation shall be raised by borrowing or otherwise.

11. To see if the school district will vote to raise and appropriate the sum of seventy-five hundred (\$7,500.00) dollars to pay the initial interest payment on the bond issue for Article 10.

12. To see if the school district will vote to raise and appropriate the sum of ten thousand (\$10,000.00) dollars, seventy-five hundred (\$7,500.00) of which is to be used for land purchase and twenty-five hundred, (\$2,500.00) for land clearing, both in conjunction with Article 10 and to be made available before July 1, 1966.

13. To transact any other business that may legally come before said meeting.

Given under our hands at said Londonderry this 14th day of February 1966.

TOWN WARRANT

BUDGET

TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Londonderry in the County of Rockingham in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Central School in said Londonderry on Tuesday, the eighth day of March, next at Ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.
3. To see what rate of discount the Town will allow on taxes for the ensuing year.
4. To see if the Town will authorize the Selectmen to borrow money in anticipation of taxes.
5. To see if the Town will accept State aid for the construction of Class V Roads, and raise and set aside for said purpose the sum of \$1,378.62, and the State to contribute the sum of \$9,190.81.
6. To see if the Town will vote to raise and appropriate the sum of \$4,600.00 for the purpose of conducting a comprehensive planning study of the Town.
7. To see if the Town will vote to purchase the Linehan property containing 40 Acres more or less for the sum of \$7,500. Part of this property to be deeded to the Londonderry School District if the School District votes to build a school on this location.
8. To see if the Town will vote to raise and appropriate the sum of \$5,478.00 to pay for extending water line at Grenier Field.
9. To see if the Town will vote to raise and appropriate the sum of \$2,100.94 expended for fill and grading at the recreational area at Londonderry Central School.
10. To see if the Town will vote to raise and appropriate the sum of \$2,000.00 for the continuance of work on the recreational area at Londonderry Central School.
11. To see if the Town will vote to authorize the Selectmen to appoint an Inspector of Buildings who shall hold office for a term of one year, and by vote fix and regulate his compensation as authorized by section 1, Chapter 156, N.H. Revised Statutes Annotated, 1955.

12. To see if the Town will vote to authorize the Selectmen to sell property acquired by the town, through Tax Collector's Deeds, at Public Auction.

13. To see if the Town will vote to authorize the Selectmen to purchase a fire truck that meets with underwriters' approval and to negotiate a five-year loan in the amount of \$20,000. to finance this appropriation. By petition of Homer L. Brewer, et al.

14. To see if the Town will vote to become a member of a Metropolitan Manchester regional planning agency. This agency will have membership of at least two of the municipalities in the Metropolitan area. The objective of this agency will be to plan for and encourage regional planning analysis, provide consensus on major problems of regional concern, and to assist in the effectuation of projects which extend beyond the boundaries of a particular town. The agency will have no jurisdiction over any matter of local affairs. It will be, primarily, advisory. Two members of the regional planning agency shall be from Londonderry to be appointed by the Selectmen.

15. To see if the Town will vote to authorize and empower the Planning Board to approve or disapprove, in its discretion, subdivision plats showing streets or the widening thereof, or parks, and upon adoption of this article it shall be the duty of the Town Clerk to file with the Register of Deeds of the County of Rockingham, a certificate or note showing that the said Planning Board has been so authorized, giving the date of authorization, as provided in Sections 19-29 inclusive Chapter 36 of the New Hampshire Revised Statutes Annotated, 1955.

16. To see if the Town will authorize the Town Officers to sell remaining lots in Pleasant View Cemetery in plots of 2-4-6 and 8 graves each, prices to be \$20.00, \$40.00, \$60.00 and \$80.00 and ask perpetual care of \$100.00 a plot on the two and four grave lots and \$200.00 on the six and eight grave plots.

17. To see if the Town will authorize the receiving of all future Cemetery Perpetual Care funds on the basis of all interest accrued in excess of that necessary for the particular lot to be used for general cemetery up-keep.

18. To see if the Town will increase the Librarian's salary from \$1,300 to \$1,550 a year.

19. To see if the Town will vote to accept the following Trust Funds:

Henri Zannoni	\$100.00
Wendell and Mary Lou Taylor	\$100.00
John Perry	\$100.00

20. To transact any other business that may legally come before this meeting.

Given under our hands and seal, this twenty-first day of February, in the year of our Lord nineteen hundred and sixty six.

SCHOOL BOARD REPORT

The school system in Londonderry continues to be faced with a situation of such rapid growth that needs cannot be met without extra effort to keep abreast of this expansion.

Figures show that the average cost of educating a public school student rose nearly 6% during the past year. The average school district is currently spending \$395. on every elementary school student and \$514. on each secondary school student. These figures do not include construction, debt or school transportation costs.

The Educational Cost Index rose 2.7% during the last twelve months. What cost \$375. last year now costs \$383. and teachers' salaries have increased nationally 35.5% from \$4,680 in 1959 to \$6,341, last year's average.

The New England States, ranking third in the nation, have an average expenditure of \$433. per elementary pupil and \$563. per high school pupil.

These figures may not mean too much by themselves, but if we compare our own with these we can feel proud of the job that Londonderry is doing to provide a good education for its young people.

We are planning for future growth and have laid out plans for more school rooms in the heavily populated areas, as well as planning for specialized training in the now existing complex.

A Cooperative School Study Committee was appointed at the last school district meeting and this remains as such for three years or until an adjoining town petitions us, or vice versa, for annexation. The legislature has passed laws favoring aid to cooperative and area schools but some of these laws have not been fully implemented and all necessary funds are not available at the present time.

The total enrollment of pupils in Londonderry (including secondary) is fast approaching the 1,000 mark. The time has come when we need a nurse full time in our elementary school as her pupil load is higher than the state recommends. It may soon be necessary to employ a full-time music teacher as well as one for art and other special courses. Costs of administration and instruction as well as those for operation and maintenance are ever increasing with each new child enrolled. The enrollment of 578 in September 1964 was increased to 660 by September 1965.

The school board looks for support from each and every one in the effort to continue with the good education that this town is providing for its young people. This is quite evident when we read the

honor rolls in the secondary schools where our graduates have selected to continue their education. Londonderry can be proud of the high percentage of its students attaining honors.

We wish to thank the people of Londonderry for their help and understanding of the many problems which have faced us this past year. The look into the future presents a great challenge which we will meet as we have in the past.

MARION I. ANDERSON

HAROLD V. LLOYD

R. F. PHILLIPS SMITH

REPORT OF COOPERATIVE SCHOOL STUDY COMMITTEE

Pursuant to Article #9 of the 1965 Londonderry School District meeting as amended, the moderator appointed two committeemen and the school board appointed one of their members to serve collectively as a committee of three to study cooperative schools as they may affect this district.

The Londonderry School District was the only district in Supervisory Union #10 voting affirmatively to study similar articles last March. (Chester later voted to study a cooperative with Raymond, et al.) So preliminary planning and investigation with other groups never culminated. Through discussions of the Londonderry School building committee and school administrators in their groping for direction in overall planning, it was decided to invite Mr. Damon Russell of the State Board of Education to a joint meeting of the above group, this committee, the school boards of Chester, Derry and Windham, representatives of the Londonderry selectmen and trustees of Pinkerton Academy to discuss cooperative schools in our area.

A vote of the district in any town abutting Derry (which is now a cooperative school district) is not necessary to study cooperative schools. However, the school board of an abutting town may request to study annexation to the existing cooperative. After study and the necessary hearings the local district would then have an opportunity to vote pro or con. It is not anticipated that a request for annexation will be initiated by Londonderry in the foreseeable future.

Statedly the reasons for a cooperative school are to

1. Improve the educational curriculum offered
2. Facilitate financing this improved education
3. Facilitate administering education

Basically a joint planning committee or board draws up articles of agreement which are discussed at public hearings and are approved by the New Hampshire Board of Education then voted upon at district meetings. The articles of agreement establish the following:

1. Membership (what towns or districts are involved)
2. Grades of school involved (usually kindergarten through 12th grade)
3. Name of new cooperative
4. School board -- number and how distributed (1 per town minimum, 15 maximum)
5. Property agreements (all school property deeded to cooperative with a credit toward town's share of cost)

6. General location of new construction (if planned)
7. Basic apportionment of capital and operating cost (usually based on equalized valuation, average daily membership or a combination of both and may be changed every 5 years)
8. Method by which state aid is to be credited to each town
9. Method of amending these articles of agreement
10. Any special provisions (transportation cost if any, etc.)
11. Date that operating responsibility transfers from school district to cooperative (usually July 1)

Most of the educational advantages of a cooperative school at the secondary (high school, junior high school) level are the outgrowth of amassing a relatively large number of students (about 250 per grade minimum). This permits a complete and comprehensive program which may include art, languages, band, music, practical arts, physical education, guidance etc., as well as the more basic subjects, at a per pupil cost that is accepted as reasonable. An athletic program may also be included that individual schools could not offer. A separate junior high school offering a similar broad range of subjects at an earlier period in the student's development is likewise obtainable with a large enrollment.

Since elementary schools are already established and would be continued or expanded on a neighborhood or community basis, the educational advantages offered by incorporating are found in the sharing of special educational services (music, art, remedial reading teachers, etc.) by several schools within the cooperative and the uniformity of curriculum and supervision.

The financial inducement to incorporate into a cooperative school district is the increased state aid on school construction expenditures, for both future and the existing debts. An individual school district now receives 30% of the cost of construction in state aid; if two districts incorporate the state offers 40% and 5% for each additional district joining the cooperative up to a maximum of 55%. All building aid is subject to the review of the legislature each time they are in session.

The upper limit of the bond indebtedness of a school district becoming a cooperative is increased from 7% to 10% of the equalized valuation as a further financial inducement. The state guarantees to pay the whole of the principal and interest of any bonds which shall be issued. As an incentive to pre-existing school districts the state board will pay annually to a cooperative school district the following sums: \$45 for each pupil at the elementary level; \$60 for each pupil in junior high; \$75 for each pupil in high school.

Specific advantages that may accrue to Londonderry if it joined a cooperative school district are:

1. The existing contract with Pinkerton Academy could possibly be amended so that the cooperative would tuition the same pupils to Pinkerton Academy that the Londonderry District now is obliged to send on tuition;

2. A comprehensive junior high school would possibly be available to our students at an earlier date;

3. The cost of providing a complete and comprehensive educational program is less per pupil with a larger enrollment;

4. The state aid currently offered is greater;

5. The existing school bonded indebtedness of the town would be reduced by 10 to 25 percent as a result of state building aid to the cooperative;

6. The teaching staff may improve and tend to remain more stable.

The possible disadvantages or lack of additional advantages are best mentioned from a local point of view.

1. The total dollars expended by the town for education would probably be greater for a more comprehensive education.

2. A town's participation in a cooperative school can only be dissolved by a vote of the legislature "on-petition."

3. "Home rule" would be somewhat curtailed with less than 100% representation on the school board.

4. Property including the existing schools would be deeded to the cooperative district with a credit toward cost.

5. Inequality in property appraisal would affect the comparative equalized valuation and town's share of the cost.

6. We are currently sharing administrative and special educational services on a regional basis through our Supervisory Union #10 in grades 1 through 8.

7. The Central School curriculum is continually being improved, with art and French being added this year; other intermediate grade programs will be added in the foreseeable future.

8. Londonderry students have apparently not been at a disadvantage in competing with other students in high schools or post-secondary schools.

9. Our high school commitment with Pinkerton Academy has several years to run and we have been assured they will maintain their academic standards and expand if necessary to honor their present contracts with us and other surrounding towns.

The full effect of a cooperative school district involving Londonderry cannot be foretold by these generalities. This committee does not approve or disapprove of cooperative schools in general, nor does it believe that a cooperative school is inevitable.

The few conclusions reached by this investigation are:

1. A cooperative school district would not necessarily improve the education we offer to our students at any level in the basic subjects;

2. Educational enrichment could be improved and a cooperative school might be the only economic way of doing this;

3. Other neighboring towns are not presently interested in investigating the pros and cons of incorporating;

4. Concrete conclusions, including monetary, cannot be reached until specific articles of agreement are drawn up;

5. The school board can initiate a study leading to the presentation of specific articles of agreement within the next two years by Article #9 of the 1964 school warrant or at any time by annexation with the existing Derry cooperative.

Respectfully submitted,

MARION ANDERSON

ROBERT WEBBER

JOHN HERRIN

REPORT OF SUPERINTENDENT OF SCHOOLS

The report of the Superintendent of Schools will not follow the same format as in previous years but instead will give information about the regulations of the State Board of Education which spell out the powers and duties of School Boards and Superintendents.

REGULATIONS OF THE STATE BOARD OF EDUCATION

Powers and Duties of School Boards

1. The school boards shall determine the salary and term of employment of all teachers and shall elect them upon nomination by the superintendent. If they reject any nominations they shall require the superintendent to make further nominations.

2. They shall employ janitors and other employees required for the proper operation of the schools, determine their salaries and terms of employment and prescribe their duties.

3. They shall authorize all purchases.

4. They shall make suitable provision for the accommodation of pupils in approved schoolhouses and for proper transportation and shall provide that all school houses and outbuildings are kept in a clean and proper condition.

5. They shall seasonably prepare a budget of school expenditures and before September of each year make suitable assignment of the school money to the various needs of the schools. In state aided districts accounts shall be kept as the State Board shall require and shall be open at all times to the inspection of the superintendent or any other officer of the State Board.

6. They shall hold meetings for the transaction of business at least once in two months and shall require the attendance of the superintendent. The secretary shall keep a written record of each meeting.

7. They shall exercise all powers and perform all duties vested in and imposed upon the school board by law or regulations of the State Board which are not committed to the superintendent or by them expressly delegated to him.

8. They shall, upon recommendation of the superintendent and in accordance with the regulations of the State Board, determine the subjects of instruction for each of the several grades and the school time to be devoted to each subject.

POWERS AND DUTIES OF SUPERINTENDENTS

1. The superintendent of schools of each union shall be nominated by the joint board of the union and employed by the State Board of Education. He shall give his entire time to the performance of the

duties prescribed by law and by the regulation of the State Board. Assistant superintendents shall be employed in the same manner and shall devote their entire time to the performance of the duties delegated to them.

2. He shall enforce or cause to be enforced the rules of the school board, the regulations of the State Board and all laws relating to the school attendance and employment of children and illiterates. He shall report to the proper officers violations of the laws of the state or of the regulations of the State Board relating to the administration of the public or private schools or affecting the welfare of children.

3. He shall direct and supervise the work of all teachers and janitors and shall have all powers necessary to make such direction effective.

4. He shall nominate all teachers in accordance with the law and the regulations of the State Board, subject to such rules governing salary, term of employment, etc., as the school board shall determine.

5. He shall select and purchase textbooks and all other scholastic apparatus and supplies in accordance with the regulations of the school board and the State Board and see that the same are suitably distributed to the schools, accurately accounted for and economically used.

6. He shall keep such records and make such reports of his doings, the condition of the schools and the financial standing of the districts as shall be required by the school board or the regulations of the State Board.

7. He shall remove any teacher or other employee of the district found by him to be immoral or incompetent, or who shall not conform to the regulations legally prescribed by the State Board of Education, or by the school board.

8. He shall provide for temporary vacancies in the teaching force and shall have authority to secure fuel or other supplies immediately needed for the operation of the schools, if the school board shall fail to provide them.

9. He shall admit in accordance with the laws of the state and the regulations of the State Board pupils to school attendance. He shall assign them to such classes and grades as he finds their preparation warrants, shall advance them in accordance with their capacity and attainments and shall recommend to the school board their graduation when they have completed the program adopted for the school.

JOB ANALYSIS

A job analysis sheet for the Superintendent of Schools and the Assistant Superintendent of Schools has been worked out and presented

to the Supervisory Union School Board. This job analysis attempts to define the duties of each school administrator and is printed here for public knowledge.

The Superintendent is responsible to see that all policies of the school districts are carried out, that funds are spent as budgeted and that he exerts the leadership necessary so that the educational system will meet high standards and the needs of all the pupils.

All principals and other personnel are answerable to him. It is his responsibility to see that the schools are administered satisfactorily. His position is primarily a decision-making one. The principals, office personnel as well as various other personnel come to him for answers that are usually not spelled out and he must assume the responsibility for the decision.

Trouble-shooting is another of his concerns. If someone needs to be corrected, reprimanded, warned or even dismissed, he must make the decision and take action.

He attends all Board meetings. He decides mainly what should go on the Agenda. He helps gather information necessary to discuss agenda items and probably one of the jobs that takes much of his time is the follow-up of the business conducted at the various board meetings. Much time is consumed in following-up telephone requests from board members and others.

A major responsibility is the recruitment of teachers and principals. This is almost a six-month job. This year approximately forty-two teachers and two principals were hired and there were several candidates interviewed for each position.

Probably the most important responsibility is the preparation and development of the budgets and at budget time there is time for little else.

The superintendent gathers various statistics and makes projections on future enrollments. He is involved with school construction and planning, and attends meetings with building committees and architects.

He is the liason between the State Department and the school districts and is responsible to see that school laws are upheld.

In the area of public relations, he has many responsibilities--dealing with the press, Parent Teacher Associations, town officials, budget committees, etc., and is the official representative of the school districts and Union on many occasions.

He supervises and helps set up all bids. He is involved with transportation and cafeteria problems. He works in the area of supervision

of operation and maintenance of the school plants and summer maintenance programs, as well as contacts with custodians and tradespeople as they work in the area of repair and maintenance. He meets with salesmen in certain areas.

He attends school district meetings, and although not an active participant, is ready with various information that he has compiled.

He should attend Superintendents' Conventions or Conferences, to learn what is new in education as it relates to the curriculum and teaching techniques and also observes what is new in the maintenance field. He should at least peruse if not study state and local legislation, activities and programs that now or will in the future effect the educational program.

By law the position is described as having the following duties and responsibilities:

He shall enforce or cause to be enforced the rules of the school board, the regulations of the State Board and all laws relating to the school attendance and employment of children and illiterates. He shall report to the proper officers violations of the laws of the State or of the regulations of the State Board relating to the administration of the public or private school or affecting the welfare of children.

He shall direct and supervise the work of all Principals, Teachers and Janitors and shall have all powers necessary to make such direction effective.

He shall recommend teachers in accordance with the law and regulations of the State Board, Local Board.

He shall select and purchase textbooks and all other scholastic apparatus and supplies in accordance with the regulations of the School Board and the State Board and see that the same are suitably distributed to the schools, accurately accounted for and economically used.

He shall keep such records and make such reports of his doings, the conditions of the schools and the financial standing of the districts as shall be required by the school board or the regulations of the State Board.

He shall recommend removal of any teacher or other employee of the district found by him to be immoral or incompetent or who shall not conform to the regulations legally prescribed by the State Board of Education, or by the school board.

He shall provide for temporary vacancies in the teaching force and shall have authority to secure fuel or other supplies immediately needed for the operation of the schools, if the school board shall fail to provide them.

He shall admit in accordance with the laws of the State and the regulations of the State Board pupils to school attendance. He shall help assign them to such classes and grades as he finds their preparation warrants, shall advance them in accordance with their capacity and attainments and shall help to recommend to the school board their graduation when they have completed the program adopted for the school.

He shall prepare an annual report for the school district.

He shall supervise the program for alterations and repairs to the school plant.

He shall direct the instruction, supervision and discipline for all pupils.

JOB ANALYSIS - ASSISTANT SUPERINTENDENT

Responsible for improving and up-dating the curriculum and Teacher supervision. Emphasis is on Junior High, liason with all High schools serving our pupils, responsible for custodians, custodial time schedules, custodial supplies, in-service training of custodians, meeting with salesmen.

Breakdown of Responsibilities:

Supervision: Supervision of teachers (Emphasis on Junior High)

Curriculum - Available to assist teachers with problems concerning grouping, selection of texts, continuity of program, etc.

Employment of Teachers - Assists the Superintendent in interviewing and evaluating each candidate for positions in Union 10. In absence of Superintendent, carry out interviews and procedure to select teacher.

Book Requisitions - Assist Superintendent and Principals with budget requests.

Principals' Meetings - Responsible for agenda, conducting of meeting, follow-up arrangements, etc.

Responsible for group meetings to discuss items of interest, problems and programs with teacher-principal groups - particularly at Junior High level; also will give assistance to the group meetings at other teaching levels.

Attend School Board meetings.

Assist in Budget preparations.

Prepare specifications, bids, oversee requisitions and purchase all custodial and operational supplies.

Prepare budget recommendations for this department.

Act as liason between custodial staff and superintendent or board.

Receive and take care of all calls relating to Operation of all

Plants.

Be responsible for the operation of all plants in areas of:

- a. heating
- b. lighting
- c. rubbish and snow removal

Assist the Superintendent in the area of transportation:

- a. preparation specifications and/or bids
- b. driver supervision
- c. schedules and problems
- d. budgets

Serve as necessary in an advisory capacity in building programs.

- a. specifications
- b. estimates
- c. plans and inspections

SUPERINTENDENT'S REPORT

Factors which must be taken into consideration in order to become more knowledgeable about the administrators positions are these facts:

1965 - 1966

July 1, 1965 - June 30, 1966

Town	Budget	School Const.	As of Oct. 1st, 1965	Teachers	Custodians Secretaries Bus Contr.
			Pupils		
Auburn	\$176,575.72	\$300,000.	285	11	3
Chester	122,108.02	0	221	8	2
Derry	770,285.21	695,000.	1,272	57	11
Londonderry	360,605.34	0	654	24	7
Windham	278,073.33	0	326	18	5
TOTAL	\$1,707,647.62	\$995,000.	2,758	118	28

Members of school boards and school administrators hold a great public trust. They are responsible for creating an honest awareness of the educational needs that will result in providing the means whereby our American way of life is to be improved and to endure.

This responsibility extends to the education of our people, particularly the youth, so that each person may become intellectually and spiritually competent, economically and socially successful and happy; that he becomes a responsible citizen, home member, learner and worker.

Respectfully submitted,

ROBERT W. DOLPH
Superintendent of Schools

ASSISTANT SUPERINTENDENT

It is my pleasure to present my third annual report to the citizens of Londonderry for the year ending June 30, 1965.

The faculty at your school has again undergone changes that, while partially to be expected, are not in the best interests of education. This turnover in personnel is a result of many factors and needs the efforts of many people to change the trend.

I would like to again mention some of the areas that need continued attention:

1. Physical education
2. Guidance
3. Library
4. Languages
5. Acceleration in the area of mathematics
6. Shop and home economics experiences
7. Science facilities

Much progress has been made in the area of Library and is to the credit of Londonderry. Discussion is taking place concerning the other areas and this is good. Progress is being made.

This appears to be an appropriate place to mention school drop-outs. In Londonderry the impact of our drop-outs is not felt too much because of the small number; however, the individuals making up this number are important. Honest and sincere parental advice has been and can be the most persuasive approach in keeping our young people in school.

I wish to take this opportunity to thank the people of Londonderry, the School Board, Mr. Dolph and members of the faculty and staff for making this another successful and progressive year.

Respectfully submitted,

IRA A. STICKNEY

Assistant Superintendent of Schools

REPORT OF THE PRINCIPAL

The excitement of utilizing a new school building for the first time always runs high. The added facilities opened up all sorts of new opportunities to the children. The multipurpose room and new library facilities have become such an integral part of our school that it is impossible to imagine that we once got by without them. The opportunities for physical education, plays, assemblies and like activities have enriched every pupil's school experience.

The year began with enrollments up by 55 pupils. The area of greatest increase continued to be in the 1st grade where 3 divisions proved to be inadequate, for enrollments soon rose to the mid-30's. This indicates that another 1st grade must be added next year.

The 5th grade size proved to be too large for 2 teachers, so in October an additional teacher was hired. This brought the number of teachers to 20. With a student body of slightly over 600 this brought the average pupil-teacher ratio to 30-1, which is just meeting the state maximum standard of 30 pupils per room.

The curriculum was brought up to date by the extension of the modern math curriculum to all grades and the introduction of a new science series. One of our areas of greatest need is in supplementary reading books to add to the library. We are fortunate in having the town library in our school; however, we must anticipate the day when it may not be here and plan toward gradually building one of our own. All elementary schools are realizing the importance of a library so we must not be left without one if and when the present facilities become inadequate for the town library.

We were fortunate in keeping many of our experienced staff and in securing the services of several new teachers: Miss Annette LaBadie and Miss Elizabeth Johnson, grade 3; Mrs. Gertrude Greeley and Mrs. Marion Landry, grade 2; Mrs. Janet Baker, grade 4; Mrs. Louise Willis and Mr. Lowell Canovitch, grade 5 and Mr. Eugene Hingston, grade 6. Each year the securing of new teachers becomes more and more of a task. Competition is keen. We had a total of 8 new teachers out of 20. This represents a considerable turnover, which does not contribute to the continuity of curriculum or the quality of education. At the end of the year it was necessary to hire 7 new teachers for the following September. If this trend is to be halted, efforts must be made to improve the salary schedule which is the chief contributing factor to this instability.

We were sorry to see the retirement of 2 of our veteran teachers - Mrs. Marion Smith and Mrs. Fannie Watts. Both teachers gave many good years to the education of the town's youth and I'm sure they both will be remembered by those countless pupils they helped through the years.

The year also saw the appointment of a building committee to work with the school board in determining the next building need. The present school building of 22 rooms will be filled by September of 1965 and additional space will be needed the following September.

As the school grows and education becomes more complex the needs become greater and greater. Each March the citizens are asked to spend more to provide better services for the education of their children. Each year these needs have been met. Let us all hope that the children of Londonderry will continue to be able to be prepared for the challenges of higher education and future life. Quality education is the greatest gift parents can bestow.

Plans for the future additions to the school must be made very carefully if these opportunities for better education are not to be sacrificed for merely more space. The day is here when decisions must be made as to what type of upper elementary or junior high program will be offered. Educators can only point the way -- the decision as to how good the education will be rests with the citizens of the community.

Respectfully submitted,

JOHN W. BONE, Principal

SCHOOL HEALTH REPORT

The health program for the school year 1964-65 got under way with the scheduling of three immunization clinics on September 28, October 26 and November 23. These clinics are under the auspices of the State Health Department and are administered by the district nurse in cooperation with the school nurse. In going over the children's records it was found that many immunizations were not up to date. Therefore, it was decided to hold the clinics in the school auditorium and any child, with his parents' permission, could obtain any needed inoculation. This was in addition to any pre-school child, who came accompanied by his parent. 283 immunizations were given, 54 vaccinations and 366 doses of oral polio vaccine.

Unfortunately, even with the easy availability of such clinics there are children who have not received oral polio vaccine. Tentative arrangements have been made for another polio clinic in the spring of 1966.

We were unable to have the dental clinic this year. This clinic is set up in the school and we use equipment loaned to us by the State Board of Health. Much of the equipment we have used in the past was antiquated and in need of replacement. New equipment was ordered but did not arrive in time to make arrangements with the dentist. The clinics will again be held during the 1965-66 school year.

Tuberculosis testing was done in grades 1, 3, 5 and 8. The Heaf test was used this year, replacing the patch used formerly. This test is more accurate and you avoid "lost" patches. 295 children and teachers received the test. 19 received chest x-rays when the unit was set up in Grinnell School in Derry.

Vision tests were done on all pupils. Of the 54 children found with defects, 44 were seen by their own doctor.

Hearing tests were done on all children in grades 1, 3, 5 and 8. Of the 14 found to have difficulty, 10 were seen by their own doctor. A new audiometer was purchased by the school district for use in the Londonderry and Chester schools. The Lions Club of Chester donated a vision tester to the Chester school for use in both schools.

All children were weighed and measured.

Communicable diseases and other clinics are listed as follows:

Chicken pox	97
Measles	41
Mumps	50
Impetigo	6
Scarlet fever	2
Ringworm	3

Children referred for clinic service:

Mental hygiene	4
Convulsive	2
Orthopedic	3
Cardiac	2

No. of home visits	21
--------------------	----

Pre-school registration clinic was held on May 24 and 25, with 73 children registering.

Respectfully submitted,

RAE SIVES,
School Nurse

DIVISION OF MUNICIPAL ACCOUNTING

STATE TAX COMMISSION

Concord, New Hampshire

SUMMARY OF FINDINGS AND RECOMMENDATIONS

September 3, 1965

The School Board
Londonderry School District
Londonderry, New Hampshire

Gentlemen:

Submitted herewith is the report of an examination and audit of the accounts of the Londonderry School District for the fiscal year ended June 30, 1965, which was made by this Division in accordance with the vote of the District. Exhibits as hereafter listed are included as part of the report.

SCOPE OF AUDIT

Included in the examination and audit were the accounts and records of the School Board and the School District Treasurer.

FINANCIAL STATEMENTS

Comparative Balance Sheets: (Exhibit A)

Comparative Balance Sheets as of June 30, 1964 and June 30, 1965, are presented in Exhibit A. As indicated therein, the Net Debt decreased by \$19,584.23 during the fiscal year ended June 30, 1965.

Analysis of Change in Financial Condition: (Exhibit B)

An analysis of the change in financial condition of the School District during the fiscal year is made in Exhibit B, with the factors which caused the change indicated therein. These were as follows:

Decrease in Net Debt

Net Budget Surplus	\$ 7,285.17	
Bonds Paid	<u>25,000.00</u>	
		\$32,285.17

Increase in Net Debt

Surplus Used to Reduce School Tax	<u>12,700.94</u>
Net Decrease	\$19,584.23

Comparative Statements of Appropriations and Expenditures - Estimated and Actual Revenues: (Exhibits C & D)

Comparative statements of appropriations and expenditures, estimated and actual revenues for the fiscal year ended June 30, 1965, are presented in Exhibits C and D. As indicated by the Budget Summary (Exhibit D), a revenue surplus of \$13,013.37, less a net over-

draft of appropriations of \$5,728.20, resulted in a net budget surplus of \$7,285.17.

Summary Statement of Receipts and Expenditures: (Exhibit E)

A summary statement of receipts and expenditures for the fiscal year ended June 30, 1965, made up in accordance with the uniform classification of accounts, is included in Exhibit E. Proof of the Treasurer's balance as of June 30, 1965, is indicated in Exhibit F.

Statement of School Tax Account: (Exhibit H)

A statement of the School Tax account with the Town of Londonderry is presented in Exhibit H. As indicated therein, as of June 30, 1965, the School District had received from the Town the total amount of the 1964-65 School Tax of \$232,660.81.

Statement of Bonded Indebtedness: (Exhibit I)

A statement of outstanding bonded indebtedness as of June 30, 1965, showing annual debt service requirements, is contained in Exhibit I.

GENERAL COMMENTS

Current Surplus:

The current surplus (excess of total assets over current liabilities) decreased from \$12,700.94 to \$7,285.17, during the fiscal year ended June 30, 1965, as shown herewith:

	<u>June 30, 1964</u>	<u>June 30, 1965</u>
Total Assets	\$145,067.05	\$9,954.11
Current Liabilities	<u>132,366.11</u>	<u>2,668.94</u>
Current Surplus	\$ 12,700.94	\$7,285.17

Conclusion:

The provisions of Chapter 184 of the Laws of 1955, require that this report or the summary of findings and recommendations (letter of transmittal) shall be published in the next annual report of the School District.

We extend our thanks to the officials of the Londonderry School District for their assistance during the course of the audit.

Yours very truly,
HAROLD G. FOWLER, Director
DIVISION OF MUNICIPAL
ACCOUNTING STATE TAX

CERTIFICATE OF AUDIT

Sept. 3, 1965

This is to certify that we have examined and audited the accounts and records of the Londonderry School District for the fiscal year ended June 30, 1965. In our opinion, the Exhibits included herewith reflect the true financial condition of the School District on June 30, 1965, together with the results of operations for the fiscal year ended on that date.

Respectfully submitted,

HAROLD G. FOWLER, Director
Division of Municipal Accounting
State Tax Commission

Lionel J. DeGrace)
Hugh J. Cassidy) Auditors

ENROLLMENT

HIGH SCHOOLS

The following tabulation shows the number of high school pupils, by grades, attending various schools and their respective tuition rates.

<u>School</u>	<u>9th</u>	<u>10th</u>	<u>11th</u>	<u>12th</u>	<u>Totals</u>	<u>Tuition Rate</u>
Pinkerton	37	39	20	25	121	\$480.00
